

Beyond Unconference

Agenda 1

3/14/2018

[Website](#)

Tentative Date: Sunday, May 6, 2018, 10AM - 5PM

- Participating organizations:
 - ACM
 - IEEE
 - SHPE
 - SWE
 - TT
 - AIChE
 - Gamespawm
 - WttB
 - Cyber@UCR
 - Society of Physics Students
 - **Let's get more orgs involved, those outside of engineering!**
- What is an unconference?
 - A conference that brings together students of all backgrounds to share ideas/experiences, teach others new skills, and connect.
 - Presentation Ideas
 - STEM Education
- Why put this together?
 - For those reasons ^
 - To give students a learning opportunity in public speaking and presenting
 - Segue into presenting at larger/national conferences
 - To create a larger, cohesive community
- Beyond Activities
 - Speak
 - Talk about something you're passionate about. The domain is not restrained. A few examples are: the benefits of doing academic research, how being an Uber driver changed your life, and learning computer science as a non-programmer.
 - Host
 - Teach something! Participants will be from all backgrounds so keep that in mind. A few examples are: how to use Python to supercharge your life, how to become an artist in 5 easy steps, and how to start doing yoga.
 - Get a bunch of random words/things and make a game out of it
 - Lead

- Host a discussion. A few examples are: life hacks for students, how to increase club engagement, and how to create a network.

- STEM workshop

- **Schedule**

- MSE instead of Chung?
 - Recording talks for people who can't attend?
 - “Keynote” on how to collaborate across colleges
